this book gives readers advanced insights into macroeconomics with historical perspectives and proposes policies to resolve the problems the Japanese economy faces in the past decade Japan has experienced a rapidly aging population with an ever decreasing number of children this causes significant problems related to macroeconomics covered by this book a decreasing population an increasing public debt an increasing social security expenditure and deteriorating labor productivity thus the government must change the course it has followed until now these problems can be categorized into two types 1 human capital and 2 political institutions the book therefore consists of two parts the first using a macroeconomic model is mainly a discussion of health and education problems related to human capital the second part deals with policy problems related to political institutions that is the intergenerational

imbalance preventive medicine local public utilities and other political issues through the arguments presented here readers gain knowledge that will help to achieve the necessary economic policies in japan

this edited collection focuses on migrant women and their families aiming to study their migration patterns in a historical and gendered perspective from early modernity to contemporary times and to reassess the role and the nature of their commitment in migration dynamics it develops an incisive dialogue between migration studies and gender studies migrant women men and their families are studied through three different but interconnected and overlapping standpoints that have been identified as crucial for a gender approach institutions and law labour and the household economy and social networks the book also promotes the potential of an inclusive approach tackling various types of migration domestic and temporary movements long distance and international migration temporary seasonal mobility and arguing that different migration phenomena can be observed and understood by posing common questions to different contexts migration patterns are shown to be multifaceted and stratified phenomena resulting from a range of entangled economic cultural and social factors this book will be of interest to academics and students of economic history as well as those working in gender studies and migration studies

understanding students historical understanding is a complex and challenging endeavour for history teachers as well as for researchers from diverse fields since historical situations contain interpersonal and social issues that happened in the past not only history educators are interested in how students understand them also psychologists and educational scientists aim to gain knowledge how students deal with interpersonal issues in the context of history the present book shows in which way historical understanding can be viewed as interpersonal understanding and gives indications for the limitation of an interpersonal approach regarding historical situations the different contributions of this volume give insight into an interdisciplinary discussion about how the fields of social and historical thinking are interrelated with respect to educational issues and challenges this book confirms the impression of an increase in empirical work in the domain of history education the authors present empirical approaches from the fields of history education developmental psychology and educational science using different theoretical and methodical means and thus contribute to a larger picture of what teaching and learning history at school is about

new technologies have radically transformed our relationship to information in general and to little bits of information in particular the assessment of history learning which for a century has valued those little bits as the centerpiece of its practice now faces not only an unprecedented glut but a disconnect with what is valued in history education more complex processes historical thinking historical consciousness or historical sense making demand more complex assessments at the same time advances in scholarship on assessment open up new possibilities for this volume kadriye ercikan and peter seixas have assembled an international array of experts who have collectively moved the fields of history education and assessment forward their various approaches negotiate the sometimes conflicting demands of theoretical sophistication empirically demonstrated validity and practical efficiency key issues include articulating the cognitive goals of history education the relationship between content and procedural knowledge the impact of students language literacy on history assessments and methods of validation in both large scale and classroom assessments new directions in assessing historical thinking is a critical

research oriented resource that will advance the conceptualization design and validation of the next generation of history assessments
