in the law of vibration tony plummer presents a new theory which he argues is revealing of a fundamental truth about the deep structure of the universe the law is embodied in a very specific pattern of oscillation that accompanies change and evolution it can be found in fluctuations in stock markets and in economic activity the research here suggests that the pattern was known about in antiquity because it was buried in a short passage in st matthew s gospel in the bible it also suggests that it was known about in the early part of the 20th century because it was concealed in the structure of books written by the renowned stock market trader william d gann and by the mindfulness exponent george gurdjieff both men chose to preserve their knowledge of the pattern in a

hidden form for some unknown future purpose now after 20 years of investigation tony plumber tells the story of how the pattern was originally hidden drawing on painstaking research on gematria the enneagram and financial market analysis plumber reveals the existence of a behavioural pattern that may have profound implications for the way that we view the world plumber s work is elegantly structured and illustrated throughout it is an exciting and thought provoking study for gann enthusiasts and also for investors economists and scientists who have an interest in the laws that underpin systemic coherence and produce collective order

science caught up with the psychic readings of edgar cayce when it proved that all of materiality consisting of atoms and therefore protons neutrons and electrons is energy in motion everything is a vibration even the body s five senses operate through the use of vibrations the cayce readings suggested that vibrations were also associated with healing consciousness and even locations in fact the cayce information presents the premise that all of life in every dimension is actually just different manifestations of the one force the force that moved all of creation into being therefore all vibration is ultimately that one force manifesting in the material world in a variety of ways todeschi s latest title explores how everything from consciousness to the material is connected to vibration and how we continue to create and shape our world through the vibrations all around us vibrations are essentially spirit in motion and our thoughts and actions affect our life and the way we are living
